

Fuji Salt Spreader - 250Kgs Capacity

The Fuji road legal tow behind salt spreader from Gritex has a capacity of 250 kg of salt, and an operating width of between 3 - 5 metres. This spreader is equipped with a 250 kg capacity polypropylene hopper and a heavy duty stainless steel auger. This allows this spreader to handle all types of grit and salt including the damp council type. The spreader is ideal for small to medium-size business premises, car parks, private roads, paths, estates and shopping centres. This spreader is fitted with mudguards and lights for road use - it can also be fitted with optional flashing beacon as shown.
